ABOUT MECC GROUP

ESTABLISHED
2015

MECC Group, established in 2015, is a multidisciplinary Engineering, Procurement, and Construction (EPC) company providing integrated solutions across industrial, civil, and infrastructure sectors.

Since its foundation, the company has focused on delivering high-quality engineering and construction services by combining international standards with practical execution capabilities. MECC Group has developed a strong reputation for reliability, efficiency, and technical competence in project delivery.

GLOBAL PRESENCE

MECC Group together with their partners has established an international operational presence and continues to expand into new markets.

OPERATED AREAS

Azerbaijan

Georgia

Hungary

Iraq

Ukraine

Türkiye

Greece

Tunisia

Uzbekistan

Through partnerships and project collaboration, MECC Group participates in international developments and cross-border engineering projects.

MECC
GROUP

CERTIFICATES & LICENSES

MECC Group operates in strict compliance with international standards and regulatory frameworks.

THE COMPANY MAINTAINS:

- Construction licenses
- Engineering certifications
- Industry-specific permits
- Quality and safety certifications

All operations are aligned with professional and legal requirements, ensuring reliability and transparency in project execution.

STRATEGIC PARTNERSHIPS

MECC Group engages in strategic collaborations with leading industry partners to enhance project execution capabilities and support the delivery of large-scale international projects.

AKKORD INDUSTRY CONSTRUCTION INVESTMENT CORPORATION OJSC

Founded in 2005, Akkord is one of the largest construction and infrastructure corporations in the South Caucasus region.

THE COMPANY HAS EXTENSIVE EXPERIENCE IN:

Large-scale infrastructure development

Water supply and wastewater systems

Industrial and civil construction

HICC HEAVY INDUSTRY CONSTRUCTION CO

HICC is an international engineering and EPC contractor specializing in heavy industry and energy infrastructure.

CORE COMPETENCIES INCLUDE:

EPC project delivery

Substation design and construction

Industrial plant engineering

Structural steel fabrication and erection

Equipment installation and commissioning

HICC's expertise in the energy and industrial sectors serves as a valuable enhancement to MECC Group's overall capabilities, reinforcing its capacity to deliver comprehensive and high-quality solutions.

**STRONG PARTNERSHIPS.
DELIVERING VALUE.**

FUTURE DEVELOPMENT PRIORITIES

We are interested in a wide range of infrastructure sectors, with a primary focus on participating in large-scale projects that drive connectivity, efficiency, and sustainable economic growth.

OUR KEY AREAS OF INTEREST INCLUDE:

01 AIRPORT RECONSTRUCTION

Participation in the construction and reconstruction of airports, including runways, terminals, and associated infrastructure.

02 CARGO TERMINALS & LOGISTICS FACILITIES

Development of modern cargo terminals and logistics facilities to enhance regional trade and supply chain efficiency.

03 ENERGY INFRASTRUCTURE

Execution of energy infrastructure and utility projects, including power generation, transmission, and distribution systems.

04 RAILWAY INFRASTRUCTURE

Construction and development of railway lines, stations, and associated transport infrastructure.

05 PORT DEVELOPMENT & MARITIME INFRASTRUCTURE

Participation in port construction and expansion projects, including marine terminals and supporting facilities.

BUILDING THE INFRASTRUCTURE OF TOMORROW.

Through strategic partnerships, technical expertise, and integrated EPC solutions, MECC Group aims to deliver lasting value and support national and international development objectives.

TREATMENT SYSTEMS

Group has extensive experience in water supply, sewerage, and irrigation infrastructure projects:

Water Supply &
Sewerage Network
for Eastern Part of
Jalilabad Rayon

Water and Sewerage
Networks for
Jalilabad Rayon

Construction of
Water Supply
Transmission Line of
Jalilabad Rayon

Trans Anatolian
Natural Gas
Pipeline (TANAP)

TREATMENT SYSTEMS

The group has extensive experience in water supply, sewerage, and irrigation infrastructure projects:

Sewerage Network and Northern & Southern Collectors of Mardin Wastewater

Construction of Water Supply Systems in Chiatura

TREATMENT SYSTEMS

Group has extensive experience in water supply, sewerage, and irrigation infrastructure projects:

Water Supply & Sewerage
System – Gazakh City

Melioration
Works – Sabirabad &
Salyan Districts

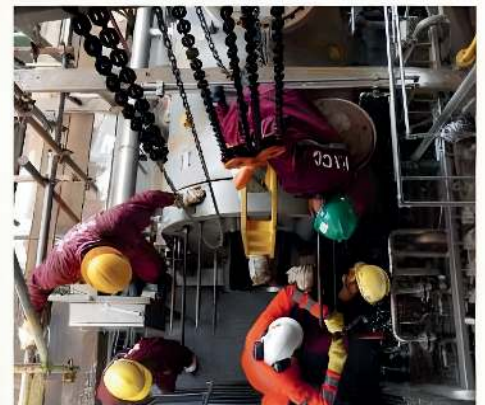

Reconstruction of
Water Supply, Sanitary
Systems and Construction
of WWTP in Agstafa
and Tovuz Cities

These projects demonstrate strong capabilities in environmental engineering and infrastructure development.

INDUSTRIAL & ENERGY PROJECTS

MECC Group delivers complex industrial and energy infrastructure projects:

- Azersun Green Factory (Azerbaijan) co-generation unit installation

- Oil & Gas and Industrial Facility Development
(Engineering, installation, and commissioning)

INDUSTRIAL & ENERGY PROJECTS

MECC Group delivers complex industrial and energy infrastructure projects:

- Solar Power Plant Substations (Ukraine, Tunisia)
(Design, supply, installation, and commissioning of high-voltage substations)

- Baiji North Refinery Rehabilitation Project (Iraq)
(Inspection, engineering planning, and reconstruction works)

INDUSTRIAL & ENERGY PROJECTS

MECC Group delivers complex industrial and energy infrastructure projects:

- G AFEZ Logistics Center Project (Azerbaijan)
(Feasibility study, concept and detailed design, planning of 16-hectare logistics center, including storage facilities and infrastructure) as turbine systems and energy infrastructure

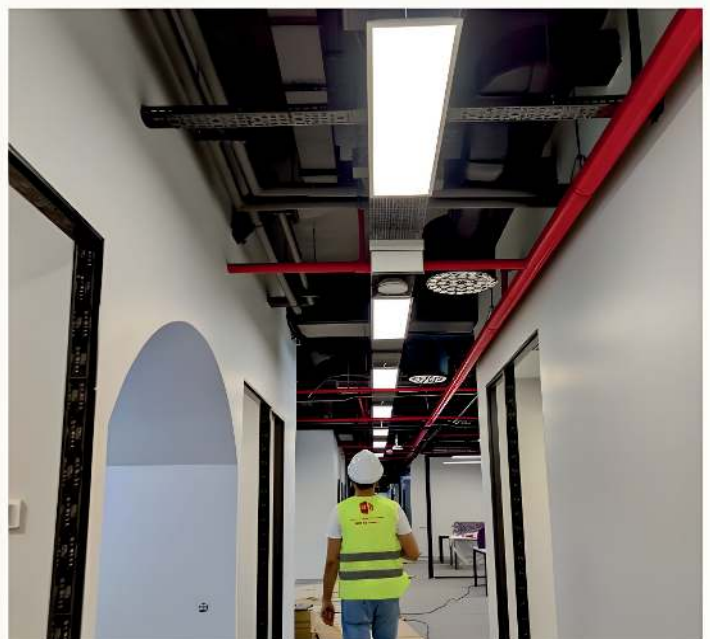

- Azersun Green Factory

CIVIL & COMMERCIAL PROJECTS

- Business centers and office buildings
- Residential complexes
- Hotels and hospitality projects
- Retail and commercial developments
